

Warden's Report 2023

We've really come a long way since we purchased this church last March. Most of the changes you see will fall under the building committee report and Father's Presentation. There has been some upkeep and maintenance done. The kitchen sink was draining really slowly so we had a plumber snake it to clear the drain line. We also had repairs made and new carpeting installed on the ramp and steps at the front entry. The light at the front entry was replaced by George and Andrea Rovny along with repairs to the side door and sprinkler system. The Rovney's also lime washed the brick and painted the trim. They constructed the large orthodox cross which was hung and backlit on the front of the entry. They also purchased and had planted the two trees on the front lawn, a pecan and an oak. Sam and Vicki Saliba donated a load of gravel which was spread in the parking area across the street. Joseph and Melinda Bowman donated and mounted the new changing table in the larger bathroom. Joseph also installed shelving and racks in the Vestry. Many other things from kitchen items to books and toys have been donated.

We have also acquired several items for the altar. Glass was cut to fit the Alter table and side table. Father purchased the beautiful book mark for the Gospel book and a tray for Holy Unction. The Drauden's donated a Litya Tray and a Processional Cross. We have several new icons and a smaller sized water trough for infant and children's baptisms.

All of these things along with many other donations of time and treasures have transformed this quaint but tired looking little church into the bright and welcoming church that we see today.

Thank you,

-Darla Stepich
